

Magna Series

Magna 50 LED Gooseneck

Magnifiers

The Magna 50 LED magnifier is the lighting solution for the precise examination of parts for a number of fields of application. The Magna 50 LED uses six innovative LEDs, providing critical added value compared to conventional fluorescents magnifiers: four times more light per watt, considerably lowering energy consumption. These LEDs offer a minimum of 50,000 hours of operating life at 100% brightness level – maintenance free for over six years running 24/7!

Features:

Connected Load: 100-240V; 50/60 Hz

Fitted With: 1 x LED lamp 4W; Neutral White

Work Equipment: Electronic plug-in transformer

Mains Lead: Approx. 7.5ft (2.3m)

Luminaire body Material: Aluminum / plastic

Tubular Sections Material: Steel tube / metal flexible tube

Surface: Painted

Weight (NET): Approx. 2.2lbs (1kg)

Fastening:

- Table mount included for table mounted lights
- Rail mount included for rail mounted lights
- Wall mount included for wall mounted lights
- Floor stand included for floor stand light

Technology: Switchable

Usage: Touch-LED

Lamp Cover: Acrylic clear

Class Of Protection: II

Color Luminaire Body: Black

Color Of Tubular Sections: Silver metallic

Lens; Dimensions: \varnothing 2.8" (72mm)

Lens; Diopters: 5.3

Add-On Lens: Not available
